

Well-being for the office or home office – The new medisana “Office Line” starts with two wedge-shaped heat cushions

Neuss, 11.02.2021. Currently, our everyday life is mostly happening digitally: we are working from home, holding online meetings instead of face-to-face, and even our children are attending remote lessons in front of the computer. As well as spending time in front of computers, laptops etc., we are also moving much less than usual, or at least most of us are. And our workplaces at home are usually not ergonomic either. With all the unwanted and undesirable consequences for our health. The new Office Line from medisana addresses these issues, offering heated health products that are equally suited to the office or working from home. The Office Line from medisana is being launched with two new heated wedge cushions, the OL 300 and OL 350, which recently received the Plus X Award in the High Quality, Design, Ease of Use, Functionality and Ergonomics categories.

The **medisana OL 300 heated wedge cushion** is a wedge-shaped heated cushion designed to improve your sitting posture. It offers 2-in-1 use either as a seat cushion or, when positioned vertically, as a lumbar support cushion, providing pleasant warmth and health benefits whether you are in the office or working from home. The advantage of heated wedge cushions: they actively stimulate the back muscles, promote blood circulation and prevent bad spinal posture. The easy-to-use heating feature allows you to choose from three different temperature levels via the practical integrated control panel, thereby ensuring the perfect sensation of warmth. The pleasantly soft foam core and removable, washable cover guarantee superior comfort. The OL 300 heated wedge cushion also has an extremely reliable safety system with overheating protection and automatic switch-off after 180 minutes.

The **medisana OL 350 heated wedge cushion** is equipped with the same practical features as the OL 300, but also has a removable, height-adjustable back cushion for additional lumbar support. And it is no problem if you want to use the cushions in various workstations, because thanks to their side grips, both models are extremely portable and easy to move.

The medisana heated wedge cushion OL 300 is available at the price of € 79.95 RRP and the heated wedge cushion OL 350 for € 99.95 RRP in specialist shops and at www.medisana.de. The Office Line will be expanded to include further products later this year.
